

MATLAB Assignments

A copy of *A Guide to MATLAB for Beginners and Experienced Users*, second edition, is on the reference shelf in the Mathematics Library (basement of Hayes-Healy). Another copy will be on reserve in the Mathematics Library. The library also has an online copy.

Prepare the MATLAB homework in the form of a published M-file (see the section on “Publishing” in 0. Introduction to MATLAB or the section “Publishing an M-file” on p. 36 of *A Guide to MATLAB for Beginners and Experienced Users*, second edition, for information on the **publish** command) and print it out (with all the input, output, graphics, comments and explanations included).

Read the Tips for doing well on MATLAB homework.
