

Academic Services for Student-Athletes

Team GPA

When calculating a team's cumulative GPA, the criteria for inclusion/exclusion of a student-athlete's GPA data is as follows:

- Student-athletes participating in multiple sports will be included for both semesters in the team's GPA for which they were recruited. In addition, for the semester in which they participate in a second sport, they will be included in that second sport's team GPA.
- Student-athletes who are abroad will not be included in the team GPA for the semester which they are abroad.
- Any student-athlete removed from a team's eligibility list prior to the end of that team's season will not be counted toward the team's GPA for that semester. Any student-athlete removed from a team's eligibility list after the end of that team's season will be counted toward the team's GPA for that semester.
