### LAPTOPS

Our office provides laptop computers to students traveling with their teams. Both Mac and PC laptops are available. A ***request*** can be made online but please do so **at least** one week-day in advance of pick up. A confirmation will be sent to your ND e-mail address.

Some things to remember when using the laptops:

- Remove all work from the C:\drive before returning the computer.
- Do not attempt to remove applications from the computer.
- Do not try to repair any problems with the software or hardware that may occur.
- Do not check the equipment with your airline luggage.
- Do not put the equipment in an overhead storage compartment.
- Do not put the equipment through an airport metal detector.
