

Academic Services for Student-Athletes

Study Center Monitors

One of the guidelines for providing a tutorial service to student-athletes is that this service should be conducted in a supervised environment. To assist in maintaining a productive environment in the study center, the Office of Academic Services for Student-Athletes employs several student monitors during the evening hours of operation. In addition to keeping the study center running smoothly, the monitor is responsible for signing student-athletes and their tutors in and out of the study center, managing the assignment of tutoring groups to available spaces, assisting tutors in completing their tutoring reports, and addressing any problems as they arise.

Upper-class undergraduate students and graduate students are eligible to be monitors. If you are interested in learning more about the opportunity to work as a monitor, contact the Tutor Coordinator, Kelli Kalisik, at (574) 631-9788 or email kkalisik@nd.edu
