

Students,

I will be holding office hours in the CAD lab (Cushing 303)

Mondays: 3-5:00 pm

Fridays: 9- 11:00 am

Feel free to stop by with your whole group or individually if you would like me to go over any of your CAD/CAM stuff or just to consult about your design. If you would like to meet with me and can not make these times just email me and we will find a time to meet.
