Engineering Design Notebook Grading I

The first round of critiques for the Engineering Design Notebook will be done on 19th and 21st February after the groups' scheduled meeting with their coordinator. I will be collecting the notebooks as scheduled below and will return them on the same day. The students need not be present during the evaluation period. They can give their notebooks to me and collect at the scheduled time. I will be available for any further discussion about the critique at a later convenient time, if required. The evaluation criteria for this critique are also posted below.
