

Wind Energy Generators:

The ISALL facility has two types of DC generators, both from Windstream Power LLC.

They are permanent magnet 12 volt DC models.

1. Model 443540 is rated at 3 amps @ 2875 rpm
2. Model 443541/WGEN10 is rated at 10 amps @ 2250 rpm.

Full specifications for these units can be found on the company's website at http://www.windstreampower.com/Permanent_Magnet_DC_Generators.php
