

Post-Doctoral Research Position on IceCube

The IceCube group at the Institute of Physics of the Johannes Gutenberg-University at Mainz, Germany, has an immediate opening for a non-tenured position as post-doctoral researcher with the IceCube experiment. Our group continues to make significant contributions to the IceCube experiment in the areas of data acquisition and physics studies.

We seek outstanding candidates that are willing to contribute to the supervision of the group and who show potential to play a visible role within IceCube. In interest in computing issues will be advantageous.

The initial appointment will be for two years. Depending on the qualification of the candidate, longer term appointments are possible. The starting date is negotiable. The payment scale will be according to the German federal state system (TV-L). Interested applicants should submit their CV together with a list of publications, copies of Degree certificates and a short statement on their research interests to

Prof. Dr. Lutz Köpke
