

AUSTRALIAN NATIONAL UNIVERSITY
DEPARTMENT OF NUCLEAR PHYSICS

**Experimental Research Positions (up to 4 years)
In Near-Barrier Nuclear Reactions Mechanisms**

Join our research team investigating:

- Fusion and breakup of weakly-bound nuclei
- Heavy element formation dynamics

Using in-house equipment:

- 15 MV tandem + superconducting linac
- Superconducting 6.5 T solenoidal separator
- CUBE MWPC detectors, 512 pixel Si array

Closing date: 23 May 2008
