

yU+Co

locations

Los Angeles, CA and Causeway Bay, Hong Kong

philosophy

Design is a discipline, a solution; in the end, it's a product.

We believe form follows function.

We are a solution-driven creative shop.

No boundaries, no one particular visual style.

We love simplicity.

We love concepts,
ideas and stories behind our work.

Our work is simple, clever, and elegant.

We believe that everything that exists in our world
has its purpose and destiny.

Things happen for a reason.

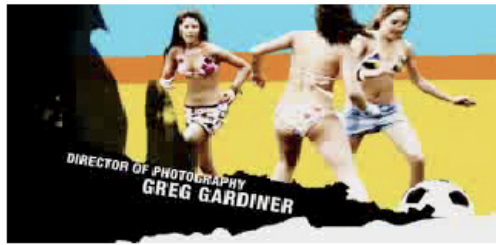

Ideas start from our imagination.

We give soul to our ideas
and we let it shine through our in our execution.

Our goal is to build a creative environment
to produce good work
and to do well in business.

We are flexible.

We care what we do.

service
