

Undergraduate Research and Internship Opportunities by ND Department

(Senior and Honors thesis and/or research is assumed for all departments.)

DEPARTMENT	RESEARCH/ INTERNSHIP PROGRAM	CONTACT
	College of Arts & Letters	
American Studies	Publishing Internship; Community Service Internship; News Internship; Museum/Historical Preservation Internship	Ben Giamo 1-7316
Anthropology	Summer internships with Smithsonian and Chicago Field Museum; National Science Foundation Research Experience for Undergraduates (NSF REU) summer program	James McKenna 1-3816
Art, Art History, & Design	Art History: Independent: Students find opportunities in museums, galleries or archeological excavations and apply for approval and art history credit. Design: Product Design Internship; Graphic Design Internship	AH: Robin Rhodes 1-7684 Charles Rosenberg 1-5672 Design: Paul Down 1-6836 John Sherman 1-7175
Classics	Study and research abroad programs	Joseph Amar 1-6276
Computer Applications	Independent: Students find outside program and apply for approval and academic credit	Louis Berzai 1-7318
East Asian Languages & Lit	Study and research abroad programs	Xiaoshan Yang 1-3840
Economics	Students may be involved with research as a research assistant and by working closely with a faculty member in connection with a special studies course or a senior honors essay.	Marty Wolfson 1-6335
Education, School and Society	Educational Research Seminar	Julie Turner 1-3429
English	Independent: Students find outside program and apply for approval and academic credit	Lynn McCormick 1-7226
Film, Television & Theatre	Media Internship Theatre Internship	Karen Heisler 1-7054 Kevin Dreyer 1-5959
Gender Studies	Gender Studies Internship; Grants for summer internships at an organization (domestic or abroad) devoted to women's/gender issues	Sophie White 1-8635
German / Russian Language & Lit	Study and research abroad programs	Robert Norton 1-5572
History	Independent: Students find outside program and apply for approval and academic credit; in process of developing internship with University Press	Dan Graff 1-5733
Honors Program	Grants available to support travel for library work or data collection, summer stipend to conduct a research project on campus or elsewhere, or travel to present results at a meeting	Neil Delaney 1-5398
Music	New Zealand Summer Teaching Internship; Bandlink: Music teaching experience locally and abroad; Jamaica Band Program	Ken Dye 1-3695
Political Science	Fall and Spring Internships; Summer Internships (funding available for sophomore or junior majors)	Carolina Arroyo 1-8248
Psychology	Psychology Externship (research assistant)	Kathleen Gibney 1-3363
Romance Languages & Lit	Study and research abroad programs	Shannon Carter 1-6886
Sociology	Sociology Internship: gives students practical experience with local agencies in the areas of urban affairs, social welfare, education, health care services, or business.	AnnMarie Power 1-0803

Mendoza College of Business		
College of Business	Internship for credit (contact Career Center for opportunities); Kauffman Entrepreneur Internship	T.J. Grams 1-3863 Gina Shropshire 1-3857 James Falkiner 1-9853
Gigot Social Entrepreneurship Program	National and international internship opportunities, courses, and a social venture plan competition	Rachel Farrell 1-4126
Institute for Ethical Businesses Worldwide	Business Ethics Field Project: gives seniors practical experience in a social service setting; Other community-based learning experiences in partnership with CSC	Jessica McManus Warnell 1-5255

College of Engineering		
Aerospace and Mechanical	Senior design projects; Individual undergraduate research with faculty advisor	Mihir Sen 1-5975
Chemical	Two-tier undergrad research program with faculty advisor	Albert Miller 1-8307
Civil Eng and Geological Sciences	-NSF REU summer programs -EPICS: Engineering Projects In Community Service -Service projects in Haiti and Benin -Center for Environmental Science and Technology -Individual undergraduate research with faculty advisor	Tammy Youngs 1-8227
Computer Science	Summer research-oriented courses; Individual UG research	Ramzi Bualuan 1-7388
Electrical	Individual Undergraduate Research with faculty advisor	Gary Bernstein 1-6269

College of Science		
Biological and Environmental Sciences	-Individual undergraduate research with faculty advisor -NSF REU summer program on Integrative Cell and Molecular Biology -The Center for Tropical Disease Research and Training (CTDRT): research from biomedical science to human rights -University of Notre Dame Environmental Research Center (UNDERC): research and education in environmental studies in areas of high environmental quality which serve as "natural" labs -Cellular and Physiological Dynamics research group	Paul Grimstad 1-8502
Chemistry and Biochemistry	-Individual undergraduate research with faculty advisor -Dr Norbert Wiech Summer Undergraduate Research Fellowship -NSF REU when available -Comprehensive list of summer programs at other universities and research institutes -W.M. Keck Center for Transgene Research -The Notre Dame Radiation Laboratory (NDRL) -Walther Cancer Research Center -The Center for Nano Science and Technology	Paul Huber 1-6042
Honors Program	Grants available to support travel for library work or data collection; summer stipend to conduct a research project on campus or elsewhere, or travel to present results at a meeting	Alex Hahn 1-5398
Mathematics	-NSF REU summer program; -Seminar for Undergraduate Mathematical Research (SUMR) -Center for Applied Mathematics	Frank Connolly 1-6571
Physics	NSF REU summer programs; Research Groups: Astrophysics, Atomic Physics, Condensed Matter and Biophysics, High Energy Elementary Particle Physics, Nuclear Physics	Margaret Dobrowolska 1-6962
