

Mathematics 850, Fall Semester 2008

April 2, 2008

Instructor: Andrew Sommesse (sommese@nd.edu)
291 Hurley Phone: 631-6498
Time/Place: MWF: 1:55 to 2:45 in Hayes-Healy 229
Class Website: www.nd.edu/~sommese/math08F850

Office Hours: I am available after class and 10:30-11:30 Wednesdays in my office.

Examinations, homework, and grades: There will be two examinations worth 100 points and a final examination worth 150 points. The final exam will be a two hour exam covering all the material of the course with emphasis on the material covered after the second exam.

Homework will be assigned regularly, and is an integral part of the course. Typically homework will be assigned on Wednesday and collected the following Wednesday. You are allowed and encouraged to use your notes and any library books while doing the homework.

Both examinations and the homework are conducted under the honor code. While cooperation in doing homework is permitted (and encouraged), copying is not.

Homework will be worth 100 points. Thus the total number of possible points for the semester is 450. The numerical break points for letter grades (A, A-, B+,...) will be based only on the test scores and the homework.

We will follow R. Durrett, *Probability: Theory and Examples*, Duxbury Press, 3rd edition, 2004, which is available at the Notre Dame Bookstore.

Exam 1: Monday, October 6 in class (take home).
Exam 2: Monday, November 17 in class (take home).
Final: Friday, December 9.

The most recent version of this handout plus other useful materials can be found at www.nd.edu/~sommese/math08F850.
