

Welcome to the University Village and Cripe Street Apartments website! This is a great community in which to live!

The information posted gives the basic facts about Village life. Be sure to also look over the testimonials of our residents. They show that it is the people here who make University Village special. Social events and our big backyard facilitate people getting to know one another, meals are prepared for families with newborns and neighbors look out for one another.

Our community center, exercise facility, garden and playground all combine to make this a place with plenty to offer adults and children of all ages.

Please look around our website and, if you have the opportunity, visit us in person. You will see why we call it home.

Sincerely,

Nathan Elliot  
Rector
